General Description

Housing a full-sized basketball court, this fully air-conditioned arena is a cool place to perform.

There is a 20-amp three phase supply at each end of the building. There is also one 10-amp outlet located at the centre of each of the four walls.

Load-in access to the venue doesn't get much easier...just reverse right up.

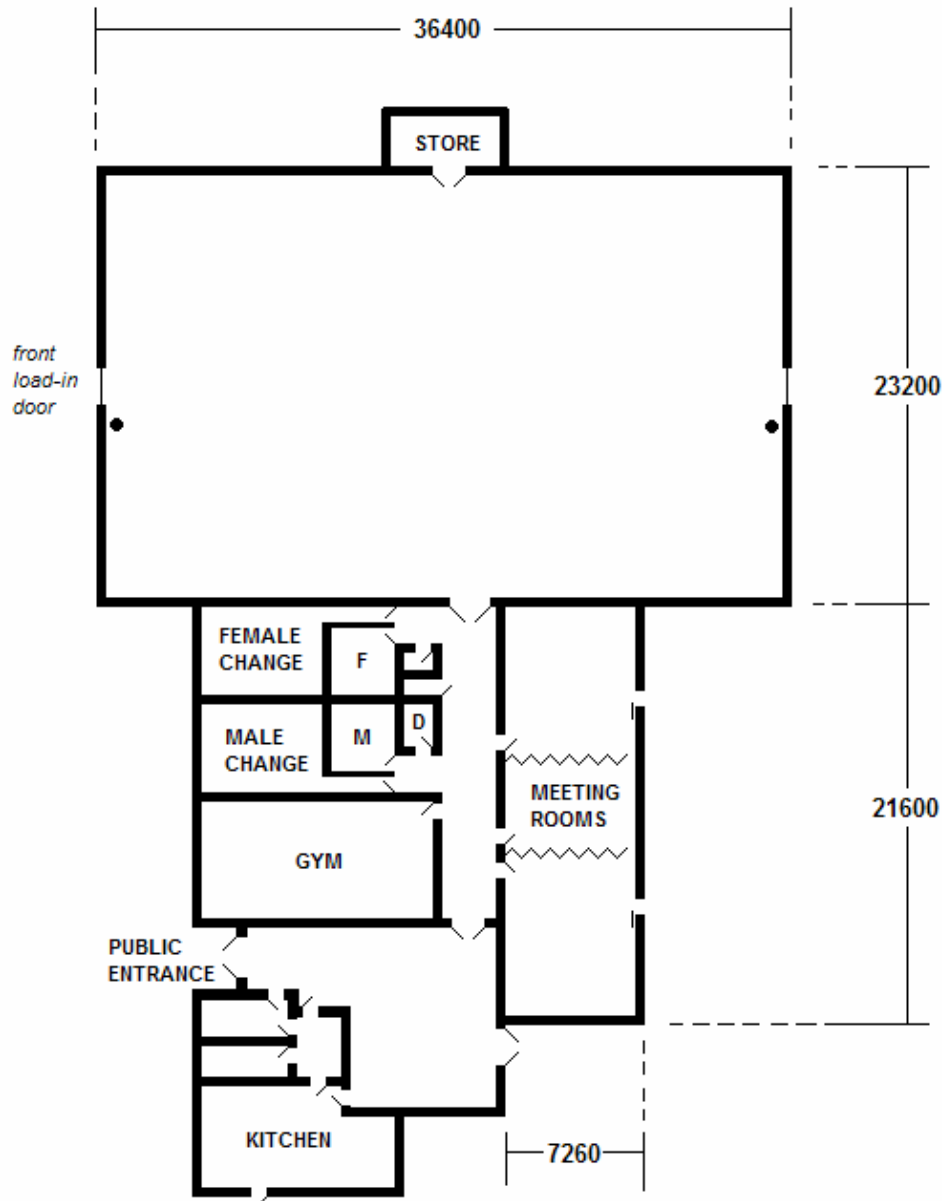

If a smaller performance space is needed, the adjoining meeting rooms are divided by concertina doors which can be opened up to provide a 21,600mm long x 7,260mm wide space with a suspended ceiling height of 2,470mm.

DIMENSIONS – All dimensions in mm

HALL LENGTH	36400
HALL WIDTH	23200
FLOOR TO CEILING	5500 at sides; estimate 10000 at centre peak
LOAD-IN DOOR SIZE	1890 wide x 2940 high

COOLGARDIE REC. CENTRE ● = 20 amp three - phase

Touring Tips

- Skylights in the roof prevent full black out of the venue during the day.
- Plenty of exposed girders in the ceiling to rig lamps off. Organise a genie or bring your own scaffold to reach the girders.
- The acoustics are surprisingly good given the size of the space.
